

## ***Organizational Announcement***

### ***Sam McConnell Promoted to Senior Vice President of Corporate Development***

I am pleased to announce the promotion of Sam McConnell to Senior Vice President of Corporate Development for BioEnergy International, LLC. This promotion is effective immediately.

This promotion of Sam is the result of two coincident happenings in BioEnergy.

First, Sam and the Corporate Development team have led very important efforts on behalf of the Company to facilitate our rapid expansion with the financing of a new plant in Clearfield, PA. This plant is a very important step for us. The support agreements, with customers, suppliers and local and national governmental authorities are critical to the future success of our ethanol operations and the company. These efforts were the result of excellent work by the entire BioEnergy team...and I thank each of you for those efforts.

Second, along with our investment partners, we at BioEnergy are focused on many avenues of additional growth. Sam and our Corporate Development and Government Relations organization will continue to be even more important as we seek further partners, acquisitions and sites for our technology and operating expertise.

For these reasons, I have agreed with our Board of Directors on promoting Sam to this new position. Please join me in congratulating Sam on this promotion.

And thank you to each of you for your hard work in continuing to grow and make BioEnergy successful.

Stephen J. Gatto  
Chief Executive Officer
